

# CAMPGROUND GUIDELINES

- 1) No cutting live or dead trees in the campground for firewood. Fuel burning camp stoves instead of wood fires is encouraged.
- 2) Portable corrals made of metal are allowed in **designated areas only** in order to protect grassy areas. Panels are to be attached to the horse trailer no more than 10' out from the trailer and no longer than the length of the trailer. It is recommended that panels be placed between hi-line poles and **MUST BE** secured. Corrals including rail, rope or drift fences are not permitted. Cleanliness must be maintained regularly.
- 3) Prepared grains or alfalfa cubes, is encouraged to avoid introduction of non-native plants and noxious weeds to the area. If hay is used, a hay net or feed tub is required. Clean up excess hay and twine and take them out with you.
- 4) Ensure you have sufficient feed. Grazing is not permitted in the campground.
- 5) Horse manure must be disposed of at the designed spot and placed as close to the existing pile as possible.
- 6) This area is acknowledged to be within Grizzly Bear range. To alleviate problems, excess feed including grain and complete feed must be cleaned up at all times and kept out of reach. Human food, cooking and eating utensils must be inaccessible to bears.
- 10) Use of generators and excessive noise must not continue past 10:00 pm. Fireworks are not permitted.
- 11) At the end of your stay, your camp site should look as though it had not been used.

Your cooperation will help ensure that the campground remains open for future use.
